**Subject:** RE: Proposed Addition to Appendix 2

Jen,

I just talked to Tom on the phone. I will take a stab at editing the paragraphs Tom wants to insert. However, I won't likely get to this until mid afternoon today. Will send this to you as soon as I can.

Dave

Subject: Proposed Addition to Appendix 2

Dave,

I've looked at what Zachery sent, and while I may be just appeasing him ... I think his write-up make a point or two.

It may be possible to insert something at the beginning of Appendix 2, that helps kick it off.

I drafted two paragraphs based upon Zachery's write-up.  
I would propose it is inserted right up front.

The change to Appendix 2 would be:

- (i) to modify the table of contents at the top of Appendix 2 to add a new section: "A2.0 Importance of Larval Testing"
- (ii) to insert the two paragraphs directly in front of what is now section "A2.1 Proposed Elements for a Larval Study" and entitle the new section "A2.0 Importance of Larval Testing"

I have attached the proposed paragraphs, and the readers proof of Appendix 2,  
... tell me what you think, and we'll finish this up.

As for Zachery's proposed research topic .... I really couldn't make too much sense of it, and so I didn't try and extract a "further research" topic from what he wrote.

I've attached the propose write-up, the readers proof of Appendix 2, ... as well as Zachery's write-up

Talk w. you in a bit,

tm
